About us

Cambridge International Examinations is the world's largest provider of international education programmes and qualifications for 5 to 19 year olds. More than 10 000 schools in over 160 countries are part of our Cambridge learning community.

We are part of Cambridge Assessment, a not-for-profit organisation and a department of the University of Cambridge. We share in their mission of providing excellence in education.

Accepted worldwide

Choosing a course of study is one of the most important decisions a student will make. It is essential to check that qualifications are widely accepted and valued by further education institutes, universities and employers. Cambridge qualifications are recognised throughout the world.

Cambridge students are widely accepted in top study destinations, for example the USA, UK and Australia, as well as many other parts of the world, for example South Africa and Germany. We are committed to ensuring that university admissions offices, colleges, employers and professional bodies around the world understand the value of Cambridge qualifications.

Making the right choice

Cambridge international education programmes and qualifications follow a student-centred approach and are a global passport to success – in education, university and the workplace. Content is multicultural and a wide range of subjects is available – including many country-specific courses.

Our global learning community of Cambridge schools, teachers and students brings people closer together to share best practice and ideas and drive excellence in education. Together with schools, we aim to develop Cambridge students who are confident, responsible, reflective, innovative and engaged.

Cambridge programmes and qualifications have a proven reputation for being an excellent preparation for university, employment and life.

Cambridge qualifications are recognised throughout the world. Cambridge students are widely accepted in top study destinations.

“I value Cambridge preparation because the students we have received with that kind of preparation have done very well at the University. We like the fact that no matter where they come from, they come prepared.”

John Barnhill, Assistant Vice President for Enrollment, Florida State University, USA

What does Cambridge offer?

The Cambridge programme is well known around the world. We offer a whole-school curriculum for 5 to 19 year olds. Below is information on the curriculum for the 14 to 19 age range as these assessments qualify students for entry to university in a range of countries.

Cambridge IGCSE®

Cambridge IGCSE is the world's most popular international curriculum for 14 to 16 year olds. Cambridge IGCSE encourages student-centred and enquiry-based approaches to learning. It also develops skills in creative thinking, enquiry and problem solving, giving students excellent preparation for higher-level courses such as Cambridge International AS & A Levels, the Cambridge Advanced International Certificate of Education (Cambridge AICE) Diploma, Cambridge Pre-U, the North American Advanced Placement Test and the International Baccalaureate diploma.

Schools can offer any combination of subjects. Each subject is certificated separately. Over 70 subjects are available, including more than 30 language courses, and they are suitable for learners of different abilities.

Cambridge IGCSEs are equivalent, grade for grade, with UK GCSE qualifications. Passing grades for Cambridge IGCSE are A*–G, with A* being the highest. U is Ungraded.

There is a group award called Cambridge ICE which is comprised of Cambridge IGCSEs from five different curriculum areas. It is awarded to candidates who have passed IGCSEs in at least seven subjects: two from languages, and at least one each from humanities and social sciences; sciences; mathematics; and creative, technical and vocational.

For more information and a list of subjects offered within Cambridge IGCSE, visit: www.cie.org.uk/igcse

Cambridge O Level

Cambridge O Level is an internationally recognised qualification equivalent to Cambridge IGCSE and the UK GCSE. Cambridge O Level provides students with excellent preparation for academic progression to Cambridge Advanced studies as well as other progression routes mentioned above.

As with Cambridge IGCSE, students can take any combination from a range of over 40 subjects. Passing grades for Cambridge O Level are A*–E, with A* being the highest. U is Ungraded.

For more information and a list of subjects offered within Cambridge O Level, visit: www.cie.org.uk/olevel

“Cambridge provides students with the edge when it comes to university acceptance. It broadens skill sets, provides deeper knowledge and understanding, as well as critical thinking skills.”

Cambridge principal, South Africa

Cambridge International AS & A Levels

Cambridge International A Levels have formed part of the Cambridge qualifications framework for over 50 years and are widely recognised for entry into higher education. Good Cambridge International AS & A Level grades can be a key to admission to the world's major English-speaking universities.

Cambridge International A Levels typically take two years to complete and offer a flexible course of study. With over 50 subjects to choose from, schools can offer almost any combination from the wide range of subjects available.

Cambridge International AS Levels have half the content of the corresponding Cambridge International A Level and may be completed in one year. Schools can offer Cambridge International AS Level as a qualification in its own right, or as a stage on the way to a full Cambridge International A Level. Students can study Cambridge International AS Level alongside other Cambridge International A Level subjects to increase breadth in the curriculum and build further knowledge and understanding.

Cambridge International AS & A Levels are recognised by UCAS and universities in the UK and overseas as equivalent, grade for grade, with UK AS and A Levels. Passing grades for Cambridge International A Levels are A*–E, with A* being the highest. There is no A* grade awarded at Cambridge International AS Level. U is Ungraded for both qualifications.

For more information and a list of subjects offered within Cambridge International AS & A Levels, visit: www.cie.org.uk/alevel

“Cambridge International A Levels are the ‘gold standard’ qualification. They are based on rigorous, academic syllabuses that are accessible to students from a wide range of abilities yet have the capacity to stretch our most able.”

Mark Vella, Director of Studies, Auckland Grammar School, New Zealand

Cambridge AICE Diploma

The Advanced International Certificate of Education (Cambridge AICE) Diploma is a group award that is mainly taken in the US and South America. It requires the study of Cambridge International AS & A Level subjects drawn from three curriculum areas (mathematics and science; languages; and arts and humanities). To qualify for the Diploma students need to obtain six credits. Cambridge International AS Level qualifications earn one credit and each A Level qualification counts for two credits.

For more information and a list of subjects offered within Cambridge AICE, visit: www.cie.org.uk/aice

Cambridge Pre-U

Cambridge Pre-U has a linear approach with exams taken at the end of the two-year course. Cambridge Pre-U Principal Subjects are slightly bigger than an A Level in terms of size and have additional stretch and challenge. Cambridge Pre-U Principal Subjects are available in 25 subjects across the curriculum.

There are also one-year Cambridge Pre-U Short Courses available in languages, mathematics and Global Perspectives which can be taken alongside the Cambridge Pre-U Principal Subjects or A Levels in the first and/or second year of study. To qualify for the full Cambridge Pre-U Diploma, a student must pass three Cambridge Pre-U Principal Subjects and Cambridge Pre-U Global Perspectives & Research (GPR). Up to two A Levels can be substituted for Principal Subjects.

Cambridge Pre-U has an extended grading scale and so can differentiate and reward achievement more finely among the top students. There are nine passing grades – three each at Distinction, Merit and Pass: D1, D2, D3; M1, M2, M3; P1, P2, P3. U is Ungraded.

For more information and a list of subjects offered within Cambridge Pre-U visit: www.cie.org.uk/cambridgepreu

University recognition worldwide

Cambridge qualifications are accepted by universities all around the world. Many universities have sent us official statements confirming their entry policies, and you can find examples from some of the most popular destination countries for Cambridge students on the following pages. For full details of all of the official statements, check our recognition database at www.cie.org.uk/recognitionsearch

Many more universities than just those listed on the database will also be happy to accept Cambridge qualifications as proof of your academic ability upon application. However, before you apply to any institution, it is essential that you check the exact entry requirements for your selected course(s) on the university website and then check with the university's admissions office if you still have any queries. You will also need to be aware of any language requirements in addition to the academic entry standards.

It is also very important to remember that university entry is always competitive so achieving the minimum entry requirements is not a guarantee of admission; the higher your grades and the stronger your application documents, the better your chance of being accepted to your chosen programme.

Recognition in the UK and Europe

Cambridge qualifications are valued by UK and European universities as academically rigorous qualifications which equip students with the skills they need to succeed both at university and beyond.

Cambridge International AS & A Levels are recognised by UK and European higher education institutions as equivalent to UK GCE AS and A Levels.

University recognition for Cambridge Pre-U, an alternative to the UK A Level, is fast gaining ground. Many universities have noted the distinctiveness of Cambridge Pre-U and are pleased to accept it as equivalent to other pre-university qualifications.

Students holding Cambridge qualifications gain places at universities in the UK and across Europe. Our recognition database holds statements from a wide range of countries across Europe including the UK.

United Kingdom

In the UK, all students must apply for undergraduate courses through the Universities and Colleges Admissions Service (UCAS), not to individual universities. According to the UCAS *International Qualifications* handbook entry, Cambridge International AS & A Levels are: 'accepted at grades A*–E in lieu of UK GCE A level and AS on a subject for subject and grade for grade basis'.

UK universities accept Cambridge Pre-U as equivalent to other Level 3 qualifications such as A Levels. The UK's most prestigious group of universities, the UK Russell Group (which includes Oxford and Cambridge), has welcomed the academic rigour of the linear approach, the retention of subject specialism and the extended grading scale which differentiates and rewards achievement more finely at the top end.

Denmark

The Danish Agency for Higher Education, an agency within the Ministry of Higher Education and Science, has given the following recommendations regarding admission to a higher education programme with AS & A Levels or Cambridge Pre-U qualifications.

General access to higher education in Denmark requires a total of at least nine subjects at (i)GCSE, AS and A Level standard. Applicants must offer a minimum of six different subjects; three of these subjects must be at A Level standard. Please note that an A Level subject may be replaced by two AS subjects; however, at least one subject must be offered at full A Level. Applicants must also meet any subject-specific requirements for their chosen degree course.

The Lisbon Convention

The Lisbon Convention is an international agreement which aims to facilitate recognition of foreign qualifications, thus promoting academic mobility among the signatory countries. The Convention has been signed by 50 countries and international organisations including the European Union, USA, Australia, Canada, Israel and New Zealand.

In terms of access to higher education studies, the Lisbon Convention guarantees that a holder of an upper secondary school or high school qualification which grants them access to tertiary education in their own home country, has the right to apply and to be considered for admission to higher education in the rest of the signatory countries: <http://conventions.coe.int/Treaty/en/Treaties/Html/165.htm>

The value of this agreement is that holders of Cambridge qualifications can apply and be considered for admission to higher education institutions in signatory countries other than their own.

For applicants with the Danish lower secondary examination (folkeskolens afgangsprøve) and AS & A Levels, the admissions requirements are as follows: the folkeskolens afgangsprøve plus two subjects at AS Level and three subjects at A Level (a total of five different AS & A Level subjects). Please note that an A Level subject may be replaced by two AS subjects; however, at least one subject must be offered at A Level. Applicants must also meet any subject-specific requirements for their chosen degree course.

For Cambridge Pre-U, admission requires at least nine subjects at (i)GCSE and Principal Subject level. Applicants must offer a minimum of six different subjects, three of which must be Cambridge Pre-U Principal Subjects. Up to two Cambridge Pre-U Principal Subjects can be replaced by subjects at A Level.

You can find more information about entry requirements for Denmark on the website for the Ministry of Higher Education and Science at <http://ufm.dk>

Germany

The Central Office for Foreign Education (ZAB), of the Standing Conference of the Ministers of Education and Cultural Affairs of the Länder in the Federal Republic of Germany, issued the following recommendations regarding Cambridge International AS & A Levels and entrance requirements for undergraduate degree programmes. The information below outlines the general entrance requirements; there are also subject-specific requirements which differ depending on the chosen field of study. You can find more information about these requirements on the ZAB database: [anabin](http://anabin.kmk.org/) at <http://anabin.kmk.org/> or on our recognition database at www.cie.org.uk/recognitionsearch. Students should review all general and subject-specific entrance requirements carefully before submitting an application. Detailed information regarding entrance requirements is also available on university websites.

General entrance requirements for Cambridge International AS & A Levels are as follows: a total of four Cambridge International AS & A Level subjects, three of which must be at full A Level standard.

For example:

- three Cambridge International A Levels
- PLUS
- one Cambridge International AS Level.

The choice of four subjects must include:

- A language at minimum AS Level. An AS or A Level in German will be considered from applicants with German nationality and German as their mother tongue providing they meet all other admissions criteria for their chosen field of study at a particular university. Please note: a language at minimum AS Level is a general entrance requirement for study at Bachelor degree level; an AS or A Level in Literature will not be accepted in lieu.

In addition, universities may have specific language proficiency requirements (for example, in German) depending on the chosen field of study. If students have any questions regarding language requirements, they should check with their chosen universities to ensure they have the most up-to-date information.

- Mathematics OR a natural science such as biology or chemistry or physics.

General entrance requirements for Cambridge Pre-U are as follows:

- Three Cambridge Pre-U Principal Subjects (or an equivalent combination of A Levels and Cambridge Pre-U Principal Subjects) and one Cambridge Pre-U Short Course (or one Cambridge International AS Level).
- If offering the Cambridge Pre-U Diploma, Cambridge Pre-U Global Perspectives & Research (GPR) will be accepted in lieu of a GCE AS Level. GPR as a stand-alone qualification will not be accepted in lieu of a Cambridge Pre-U Principal Subject.

Please note that vocational subjects will not be accepted.

The Netherlands

EP-Nuffic, the expertise and service centre for internationalisation in Dutch education, has issued the following recommendations regarding GCSE, AS & A Level qualifications and entry to higher education in the Netherlands:

Admission to an undergraduate degree programme at a research university (wetenschappelijk onderwijs, WO) requires a Dutch VWO diploma or its equivalent. Three GCSE subjects at grade C or above plus three GCE Advanced Level (A Level) subjects at grade E or above (a total of six different subjects) is considered comparable to a VWO diploma in the Netherlands.

Admission to higher professional education (hoger beroepsonderwijs, HBO) requires the minimum of a HAVO diploma or its equivalent: four GCSE subjects at grade C or above plus two GCE Advanced Subsidiary Level (AS Level) subjects at grade E or above (a total of six different subjects) is considered comparable to a HAVO diploma in the Netherlands.

Some courses may have higher entry requirements so students are advised to check with their chosen universities to ensure they have the most up-to-date information.

You can find full details regarding the acceptance of GCSE and A Levels on the EP-Nuffic website at <https://www.nuffic.nl/en/diploma-recognition/foreign-education-systems>.

Recognition in the Americas

University course credit and advanced standing is often available in countries such as the US and Canada. Good grades in carefully chosen Cambridge International A Level subjects can result in up to a year's worth of credit for four-year degree programmes.

United States

In the US, university recognition is growing. All Ivy League universities in the US recognise Cambridge International AS & A Levels. These universities include: Brown University, Columbia University, Cornell University, Dartmouth College, Harvard University, Princeton University, the University of Pennsylvania, and Yale.

In addition to this, over 70 colleges and universities in North America, again including all the Ivy League universities in the US, have provided formal recognition statements confirming that they would welcome applications from students with Cambridge Pre-U qualifications.

In the United States and Canada, good grades in carefully chosen Cambridge International A Level and/or Cambridge Pre-U subjects can result in up to one year of university course credit for four-year degree courses.

For example:

Duke University: "In order to qualify for and receive Duke International Placement Credit (IPC), students must present with grades of A or B (or the equivalent). Accordingly, a student presenting with grades of M3 or higher (M2, M1, D3, D2, or D1) in acceptable subjects in the Cambridge Pre-U program would be eligible to receive IPA credit, up to our defined limit of two such IPC credits."

"Duke University welcomes students who have taken the new curriculum from Cambridge, 'Global Perspectives and Research Report' (GPR). GPR puts an emphasis on a number of the skills that students need in order to be successful in their university education. We particularly value the independence of thought, critical thinking and research and inquiry skills that GPR develops. Although the university does not currently assign academic or placement credit for this course, we believe that it is a promising addition to the courses of study that prepare students well for post-secondary education, and would consider it an appropriate part of a rigorous and challenging curriculum."

“I think there are tremendous benefits to pursuing the Cambridge curriculum. It is a proven international curriculum for success in higher education and we know that students who pursue it have been successful around the world.”

Jerry Lucido, CERPP Executive Director, University of Southern California, USA

Canada

Cambridge international qualifications are accepted at over 40 universities in Canada. A growing number of Canadian universities recognise Cambridge Pre-U. For example, the University of Toronto states:

"The University of Toronto will accept the Cambridge International Pre-U Certificates, a combination of A Levels and Principal Subjects (3 Principal Subjects) and the full Pre-U Diploma for admission."

"Transfer credit may be granted for academic Principal Subjects and Global Perspectives & Research. No credit is given by the Faculty of Applied Science and Engineering."

Argentina

Cambridge international qualifications are recognised at more than 10 higher education institutes, including the Universidad de San Andrés. Students who have obtained Cambridge International A Level Mathematics with a D, or Cambridge International AS Level Mathematics with a C are exempted from sitting the Universidad de San Andrés mathematics admission test.

“One of the things we find with students who have studied Cambridge International AS & A Levels is that they have a real depth of understanding of the subject matter that they have had classes in, and a real engagement with it. Those are some of the things that we find really help students succeed once they get to our campus.”

Stuart Schmill, Dean of Admissions, MIT, USA

Recognition in Asia Pacific

Recognition of Cambridge qualifications is growing fast throughout Asia Pacific. In a region whose universities increasingly claim high places in the world rankings, there are numerous opportunities for Cambridge students to enter and succeed in top-class degree programmes. This page gives some examples.

Australia

Universities across Australia welcome applications from Cambridge students. Cambridge International A Levels are widely accepted for direct entry to undergraduate degree courses and a growing number of universities now also accept Cambridge Pre-U. For example:

The University of Melbourne: Minimum of three A Levels at grades BBC are required for application. Requirements differ and some courses require significantly higher grades. Admission is guaranteed to students who achieve certain grades. Cambridge Pre-U is recognised for direct entry. The University of Melbourne will also accept a combination of Cambridge Pre-U and GCE A Levels to meet the entry requirements.

All of the Tertiary Admissions Centres also have policies for accepting Cambridge students. They process applications for universities within their state(s), with particular focus on students from Australia and New Zealand. For example, the University Admissions Centre (UAC), which works with universities in New South Wales and the Australian Capital Territory, recognises both Cambridge International A Levels and Cambridge Pre-U.

All UAC participating institutions consider GCE Advanced Levels (or comparable qualifications) equivalent to an Australian Year 12 qualification. UAC also considers the Cambridge Pre-U Diploma as comparable to the Australian Year 12 standard. For students who did not complete the Cambridge Pre-U Diploma, Cambridge Pre-U Principal Subjects and GPR will be assessed in lieu of A Levels.

Hong Kong

Cambridge International A Levels are recognised by all universities in Hong Kong. In some cases, advanced credit against university programmes may also be available. For example:

The University of Hong Kong: Grade E in three GCE Advanced Level subjects, not including any language subjects in English/Chinese or for applicants who have completed the AS Level only; Grade B in three GCE Advanced Subsidiary Level subjects, not including any language subjects in English/Chinese.

New Zealand

All universities in New Zealand accept Cambridge International A Levels for admission. Cambridge Pre-U is also accepted. The minimum entry requirements are agreed by Universities New Zealand – Te Pokai Tara, which represents all universities in New Zealand.

For students in New Zealand: Students must gain a minimum of 120 UCAS points and a minimum grade of D in each of at least three subjects equivalent to those on the approved list (excluding Thinking Skills). Students presenting an E grade[†] or better in AS Level English and a D or better in IGCSE Mathematics will be deemed to have satisfied literacy and numeracy requirements of the university entrance standard.

For students outside New Zealand: Students must gain three A Levels including at least one C grade or better. A result in General Studies cannot be included among the three on which the application is based.

[†] From 2016, the University of Auckland will also require domestic students to obtain a minimum of a grade D in an English subject at AS or A Level in order to satisfy the Academic English Language Requirement.

Singapore

Cambridge International A Levels are very well recognised in Singapore. For example:

National University of Singapore: O Levels and A Levels are accepted for matriculation. Students must have at least three A Level subjects taken at the same sitting.

Recognition in South Asia

Cambridge qualifications are well known in South Asia. University admission procedures and entry tests vary widely across countries in this region, and also vary across states within some countries. Some of the universities in this region conduct common entrance examinations for entry into engineering and medical programmes. It is very important for students to check the entry requirements/ processes well ahead of making an application to the course in a university of their choice.

India

Cambridge International AS & A Levels, Cambridge IGCSE and Cambridge O Levels have long been recognised by the Association of Indian Universities (AIU) and this information is available in the *Equivalence of Foreign degrees* published by the AIU. Universities and colleges in India are autonomous but in general follow the recommendations of the AIU.

To be eligible for undergraduate degree programmes, the requirements are:

- five passes (including English Language) at grades C or above at GCE O Level or IGCSE followed by two or three passes at GCE A Level
- students intending to join medical or engineering degree programmes are required to have obtained: A Level passes in Physics, Chemistry, Biology/ Mathematics and English Language (AS Level) in addition to five passes at GCE O Level/IGCSE.

Pakistan

The Inter Board Committee of Chairmen (IBCC), Ministry of Education, decides and grants equivalence to foreign qualifications with corresponding Pakistani certificates.

For Cambridge qualifications they state the equivalence as follows: Cambridge O Level/IGCSE and International A Level and 12/13 years of schooling is considered equivalent to Higher Secondary School Certificate (HSSC/ Intermediate), subject to meeting the specified requirements of the four individual groups: Pre-Medical Group, Pre-Engineering Group, General Science Group or Humanities Group.

Recognition in the Middle East

University recognition in the Middle East is growing steadily as the popularity of Cambridge qualifications increases in the region. Here are some examples of the recognition policies we currently hold on our recognition database.

Egypt

The Supreme Council of Universities is presided over by the Minister of Higher Education, and is responsible for establishing the entrance requirements for the following member universities: Cairo University, Alexandria University, Ain Shams University, Assiut University, Tanta University, Al Mansoura University, Al Zagazig University, Helwan University, Al Menia University, Al Menofia University, Suez Canal University, South Valley University, Banha University, Fayoum University, Beni Sweif University, Kafr El-Sheikh University, Sohag University.

Admission to universities in Egypt requires eight IGCSE subjects at grade C or above in addition to passes in Arabic, Religious Studies and Social Studies. Examinations in these subjects are held under the auspices of the Ministry of Education in accordance with ministerial decrees.

Entry to the Faculties of Medicine, Dentistry, Pharmacy, Physiotherapy, Engineering, Computer Science and Information, in accordance with the decrees issued by the Supreme Council of Universities, requires a minimum of one A Level in addition to the required eight IGCSE subjects at grade C or above. There may also be subject-specific requirements for entry to these faculties; students are advised to check with the university concerned before submitting an application.

Kuwait

The Ministry of Education in Kuwait has set the following university entrance requirements:

- 1.** To achieve the equivalent of the Shahadat-al-thanawia-al-a'ama, the school-leaving qualification in Kuwait, an applicant must pass six IGCSE or six O Levels at grade D or above.
- 2.** Basic accepted subjects are as follows: Islamic Studies (MoE subject); Arabic Language (MoE subject) OR Arabic IGCSE OR Arabic as First Language; Accounting; Biology; Business Studies; Chemistry; Computer Studies; Economics; English as a First Language OR English as a Second Language; English Literature; French; Geography; History; Information Technology; Mathematics; Physics; Psychology; Science (Double award); Sociology.
- 3.** For students from international schools, the final marks for Arabic Language and Islamic Studies will be calculated as follows: 75 per cent for the exam provided by the MoE and 25 per cent for class activities. The pass score is 50 per cent, the same as for students studying the Kuwaiti national curriculum.

4. Applicants seeking the equivalent of the Kuwaiti school-leaving certificate (science stream) must offer the following four subjects: Physics, Maths, Biology and Chemistry as part of their O Levels/IGCSEs.

5. Applicants need to provide proof of their studies at high school level only.

6. Applicants should not be less than 16 years old when they apply for equivalency.

7. Out of the six required IGCSE or O Levels, only one subject from the following list will be considered for admission: Physical Studies/Education, Music, Art & Design, Graphic Design, Media Studies, Design & Technology, Environmental Studies, Drama, Quran and Nutrition. This subject must be at grade D or above.

8. AS or A Levels can also be counted as part of the required six subjects. A minimum of a grade D is required.

United Arab Emirates

The Ministry of Education in UAE has set the following university entrance requirements:

1. All applicants must have completed 12 years of schooling in order to be considered for admission to UAE institutions of higher education.

2. Students who have completed IGCSE/O Level and GCE Advanced Subsidiary (AS) Levels will be considered for admission provided that they have grade C or above in at least five subjects at IGCSE/O Level and two subjects at GCE AS Level. Subject-specific requirements for certain courses may also apply; students are advised to check with the university concerned before submitting an application.

Please note: These are the minimum admission requirements; institutions can establish higher standards at their own discretion.

Students applying to the Bachelor degree programmes at UAE University, Zayed University and Higher Colleges of Technology (HCT) and higher diploma programmes at HCT must achieve a minimum score of 150 on the English Language components of the Common Educational Proficiency Assessment (CEPA). Students will also be required to complete the Maths component of the CEPA in order for the university to place the student at the appropriate level.

Saudi Arabia

The Ministry of Education in Saudi Arabia has set the following university entrance entry requirements:

The British GCSE certificate is equivalent to the General Secondary Education certificate in the Kingdom, in accordance with the following options:

- eight GCSEs
- OR
- five GCSEs + one A Level
- OR
- five GCSEs + two AS Levels.

Applicants must have achieved grade C or above in each GCSE subject, and grade D or above in each AS and/or A Level subject.

In all of the above cases, regular attendance in secondary education is required and not just by correspondence; students must have completed the equivalent of Class 7, that is, 12 years of secondary schooling.

Recognition in Sub-Saharan Africa

Cambridge qualifications are widely recognised and accepted in Sub-Saharan Africa.

Kenya

The University of Nairobi requires that A-Level candidates have two principal passes in relevant subjects.

Malawi

The University of Malawi sets requirements for university entrance as below.

Holders of A Level with a minimum of three A Level principal passes with an aggregate of at least nine points obtained in a particular year of the preceding two years are eligible for selection into the University of Malawi. Candidates may be admitted to the first year. For purposes of selection, A = 5, B = 4, C = 3, D = 2 and E = 1.

Candidates with A Levels obtained in 2010, 2011 or 2012 should have a minimum or equivalent grade of C in three relevant subjects to the programme they are applying for.

South Africa

Candidates who did not follow the formal secondary school route in the South African schooling system need to qualify for a certificate of complete or conditional exemption. Higher Education South Africa (HESA) represents 23 public universities in South Africa and they will grant matriculation exemption certificates to holders of Cambridge qualifications provided they meet one of the following criteria:

- Pass marks in two A Levels and three Cambridge IGCSE/O Levels at grade C
- OR
- Pass marks in three A Levels and one Cambridge IGCSE/O Level at grade C
- OR
- four AS Levels at grade D or above (including English Language) and one Cambridge IGCSE/O Level at grade C.

The granting of conditional exemptions is solely at the discretion of HESA. Additional subject group requirements need to be met, details of which can be obtained from Cambridge or HESA. HESA's recognition of Cambridge qualifications applies to all universities in South Africa.

Demonstrating your English language level

Acceptance of Cambridge IGCSE and Cambridge O Level English qualifications

Cambridge IGCSE English as a First Language, Cambridge IGCSE English as a Second Language and/or Cambridge O Level English Language are accepted by many universities around the world as meeting English language proficiency requirements. We advise you to check the English language requirements of each university you are interested in applying to, before making any applications.

Universities may also require students to take another specific English language proficiency test such as TOEFL or IELTS if they are not an English native speaker. However, some universities will waive this requirement if you have been educated in English for at least the last four years.

The recognition database

Our recognition database allows you to search for recognition in specific countries and qualifications, and for different types of recognition. For example, you may want to know if a particular university awards course credit on the basis of a Cambridge International AS or A Level examination grade.

To access the database, go to www.cie.org.uk/recognitionsearch

Now just indicate what you want to search for. For example, a student in Pakistan has just taken their Cambridge International A Levels and wants to go to the USA for higher education; in particular they would like to go to New York. They would simply select the 'United States' from the drop-down menu, check the box marked 'Universities and colleges', select 'New York' and then select the qualification(s) they hold. They then click 'Search' at the bottom of the page.

Alternatively, use the search box to type in the name of the university you are interested in applying to.

The 'Recognition search' page looks like this:

The search results are displayed like this:

Click on the plus sign (+) and details for the 56 universities in New York state are shown and can be printed out.

Recognition Details:

Cambridge International AS & A Level and Cambridge AICE Diploma:

Advanced standing or transfer credit decisions are made on a case-by-case basis by the NYU school or college after a student is admitted. The Office of Undergraduate Admissions will not evaluate courses for possible transfer credit before a student is admitted to NYU. Credit and/or advanced standing may be awarded for country-specific examinations according to the following standards: Exam: A-Level Minimum Score: B Points Awarded per Subject Area Exam: 8 credits/points As with all credit by examination, the maximum total which may be granted is the equivalent of one year of full-time study or 30-32 semester hours.

Cambridge Pre-U Principal Subject:

New York University welcomes applications from students with Cambridge Pre-U examination results and will consider them on their merits, as is the case with A Levels. NYU will award at least the same amount of credit for Cambridge Pre-U Principal Subjects as it does for A Level. NYU is in the process of reviewing the exact Cambridge Pre-U grades required for credit.

Cambridge Pre-U Short Course:

NYU will award at least the same amount of credit for Cambridge Pre-U Short Courses as it does for AS Level. NYU is in the process of reviewing the exact Cambridge Pre-U grades required for credit.

If the university of your choice is not included in our database, please let us know using the contact details on page 13.

Online help

You can find answers to frequently asked questions from Cambridge principals, teachers, students, parents, examinations officers and other customers at www.cie.org.uk/help

You can enter your query into the search box or navigate using the topic list menu. If at any point you decide you would rather call or email someone you may do so by selecting 'Contact us' found at the top of the page.

“ At the University of Washington we are particularly interested in students who are not only good at learning, but who love to learn. These students are willing to be challenged, willing to dive into new things, and often more able to synthesize what they have learned. The Cambridge approach fosters such students, such learning, and such results. ”

Philip Ballinger, Associate Vice-Provost for Enrollment and Admissions,
University of Washington
